Cover Coin

Islands off Ionia, Chios

412-334 B.C.

AR tetradrachm, Chian standard (15.19 gm).

Obverse: Sphinx seated left, in front grape cluster over amphora.

Reverse: Quadripartite incuse with neatly striated surface and broad dividing strips, on the horizontal strip magistrate's name ΚΡΑΤΗΣ.

As Baldwin 62ff.

Very rare. About extremely fine and of exquisite style.

This spectacular coin which will be offered for sale in our Beverly Hills auction (lot 268) June 6th, was struck on the island of Chios during the years following the Persian Wars. Chios, a founding member of the Delian League and also an instigator of the Ionian revolt against Athens in 412 B.C., was able to fend off all Athenian efforts at reconquest (unlike some of its allies). This particular coin type with the prominently displayed magistrate's name may have symbolically indicated a revival of an autonomous local government during the 'revolt' years.

Estimated Auction VIII price: \$30,000
